Hi Sandy,

You probably got my voice message the other day. I'm quite excited to tell you that the County Commissioners officially voted 5-0 in favor. Individually they were in favor, but as you say, having a consensus as a full commission, is so much better.

I believe former Senator Carey Baker called you. We are looking to have the Governor's staff prepare and send that letter as soon as possible. Sen Baxley is gonna assist with that as well.

We're hoping, with the commissioners decision the other day, that this small group of folks opposing us will stop. We believe they are beginning to fade a bit.

I am sincerely grateful to you for your patience in enduring this group's negativity towards this incredible treasure of which we at the museum are so proud to be acquiring. You have been WONDERFUL.

With my sincerest appreciation,  
Bobby
